ADVANCED BUILDING TECHNOLOGY

The Future of Building Today

A Next-Generation Building Solution For Your New Home Or Condo

Appearing across continents around the world for over 35 years, prefabricated Panergy's insulated wall system is an evolution in building. Panergy is simply a better building technology delivering:

- Energy cost savings
- Increased energy efficiency
- Sustainable development and a lower carbon footprint
- Acoustic, thermal and superior fire performance
- Improved moisture protection

Field tested across continents around the world for over 35 years and fully code-compliant, the future of building goes to Panergy.

BE IMPRESSED

Panergy can achieve any exterior look with maximum durability including brick, stone, stucco and alternative siding.

PANERGY DELIVERS

15% LESS ENERGY COSTS
